

The recent explosion of people searching for Amega Global Products is mostly because of the **Amega AMwand**. The wand itself as you can see in the picture above, looks very much like a pen. But it is made up of a mixture of granulated minerals and created by technology called AMized® Fusion. This proprietary technology resonates at what is called zero point energy. Zero point energy reminds the cells within the body of where the cells originated from and promotes the self- healing that so many are experiencing.

It works on the immunity and nervous system as also. When the wand is used on the body or any living organism, the AMized resonance will activate the life force energy inside the cells and tissues, unblocks the energy channels, which initiates your body to begin to promote self-healing and well-being.

You can imagine all the different uses that the AMwand can have, but below are just a few:

1. Discharges blockages in your body allowing universal life force energy to have a clear path to flow.
2. Removes the distortions in your Bio energetic Field.
3. Reminds the cells where they originated and promotes the body's own self healing.
4. Energizes your food and drink which will in turn increase the potency of the minerals and vitamins within them.
5. Use it on your pets and foliage to supplement any energy deficiencies that they may have.
6. Balances and energizes any imbalances that your body may be experiencing

7. Helps to remove aches, pains and discomforts from accidents, arthritis, bruises, nasal passage blockage, tinnitus, tendinitis and virtually any other pain you may be experiencing.

8. Energizes your surroundings within your own dwelling as well as those around you.

Those are some pretty heavy ways you can use it! Here is how you would go about using it:

Point the wand towards the area you are experiencing pain and rotate it in a clockwise motion from 3 to 18 times.

For the AMwand to have the greatest effect, point it as close as possible to the area you are using it on.

You can also use it to stir your drinks with the wand and it will energize the liquids. This is a really neat thing to experience first hand as far as the difference in taste! What happens is when the wand is used to stir a liquid, the AMized resonance charges it, changes the structure of the molecules by bringing them back to their original state. It basically neutralizes any foreign substances that are not needed by the body to give hydration and assimilates into nutrients and hormones, and flushes out the toxins.

Press the wand on your finger tips and the tips of your toes, and rotate it at least 3 times to unblock energy field blockages.

Go look at the testimonial page, listen to a live call and hear live testimonials from people who have had their pain taken away with the use of this wand. It will blow your mind! This is something that has never been seen before as far as how much of an effect this thing is having on people and their discomfort.

1. One man got rid of the pain in his knee (that he had for years from a car accident) in about 2 minutes; he walked away a believer.
2. His wife has suffered from really bad migraine headaches for years and had a nagging pain in her back that ran all the way down her leg. After spending about 10 minutes with the AMwand she has not had a migraine since and the pain in her back is gone. One lady had broken her nose and was having really bad pain on the bridge of her nose. Two minutes with the wand and she had no more pain.
3. Another gentleman took nasal steroids for really bad sinus problems. He spent a couple minutes with one of these products and now he has not taken his nasal steroid in over two weeks.

What I experienced first hand and listening to the stories of others are a big reason that I not only ordered my own products, but I also got involved in the [business opportunity](#). I'm telling you, the things people are saying about their experiences with these products are nothing short of amazing! You can always [contact me personally](#) as well if you have any questions.
